Trainers

Wayne Woldt is an Associate Professor in UNL Department of Biological Systems Engineering and School of Natural Resources, and has expertise in all aspects of unmanned aircraft systems. Dr. Woldt has developed the NU-AIRE laboratory and flight program with a focus on research and education in unmanned aircraft systems. He is a certified pilot in multiple types of aircraft, including single engine land, glider, and hot air balloons. As an Unmanned Aircraft Systems expert, Dr. Woldt has been leading unmanned aircraft flight operations for the past four years.

Bill Kreuser is an Assistant Professor in the UNL Department of Agronomy and is seeking to increase the precision of turfgrass management with new technologies and environmental models. He is working with unmanned aircraft systems as part of his research and extension program to advance the use of this new technology for managing complex agronomic systems. Bill is a rated pilot with aviation experience and brings this background to the advancement of unmanned aircraft systems in agriculture.

Jacob Smith works with Dr. Woldt in the Nebraska Unmanned Aircraft Integration, Research, and Education NU-AIRE program. He has 31 years experience flying tactical and strategic reconnaissance aircraft with the USAF, and was a technical expert on satellite-based remote sensing with the National Reconnaissance Office. He is a commercial pilot, certified flight instructor, and Unmanned Aircraft Systems expert.

Don’t wait . . . register today!
UNL reserves the right to cancel training if there are insufficient registrations.

If you have questions regarding registration, please contact Bonita at 402-472-9390 or email at bdelhay2@unl.edu.

Extension is a Division of the Institute of Agriculture and Natural Resources at the University of Nebraska–Lincoln cooperating with the Counties and the United States Department of Agriculture.

University of Nebraska–Lincoln Extension educational programs obey the nondiscrimination policies of the University of Nebraska–Lincoln and the United States Department of Agriculture.
Program

1. Unmanned aircraft systems and technologies
2. Hobby flight, educational interpretation, and best practices for privacy concerns
3. Federal Part 107 rules for commercial flight and piloting
4. Lunch break
5. Overview of applications
6. Discussion period with Q and A
7. Flight time with small Unmanned Aircraft Systems

Daily Schedule for Training

8:30  Sign in
9:00  Training begins
4:00  Training adjourns

Lunch and break refreshments are provided at the training site and are included in the registration fee.

How to Register

Registration is $50.00 each day for each person attending.

Pay with Check -
Complete the registration form, tear it off the brochure, and mail it with your check payable to the “University of Nebraska” and send to Bonita Delhay’s address on the registration form.

NEW!
Go online and pay with credit card
